Education

Mechanical Engineering | GPA: 3.21

Colorado School of Mines, Golden CO

Started August 2025

- **Focus:** Mechanical Engineering, Aerospace, and 3D printing.
- **Relevant coursework:** Statics, Differential Equations, Computer Science, Design I
- **Achievements/Certifications:** L2 Certified for high-power rocketry, won second place for a Innov8x Biomass Challenge for \$1000 split with a partner

Technical Skills

Programming Languages: Python, C++

Frameworks & Tools: Node.js, Git, Google Places API, VSCode

Machining: All basic hand tools, CNC, Laser Cutting, 3D printing

CAD Designing: 4+ years Onshape, 1 year Solidworks with CSWA certification, 1 year Fusion 360

Other Skills: AI based researching, Excel and Google Sheets data analyzation and graphing

Professional Experience

Intern | TRSTXCYBER Solutions, Huntington Beach, CA

Summer 2025 and Summer 2026

- Developed a custom website to aid with finding new potential clients, utilized Google Places API, Leaflet, Supabase, and Google Gemini. The website used real data from the Google Places API to show companies from a requested category (Legal, Manufacturing, HVAC, etc.) on a map.
- Helped film and edit interviews for content creation and outreach.
- Helped to replace Uninterrupted Power Supply (UPS) systems for nearby clients.

Server/Cashier | Cold Stone Creamery, Seal Beach, CA

Summer 2025

- Took, made, and served customer orders.
- Collaborated with the team to provide efficient service.

Projects

“JEFF” Rocket Design (Personal Project)

- Still working with a friend to design a 2 stage rocket as a part of my schools rocket club.
- Designing a 3D printed AV-Bay to hold an Insta360 camera and Eggtimer Quark for telemetry data.
- Looking to fly on a K-480 rocket motor to achieve mach 1.2 and ~10,000ft.

Collapsible and Sustainable Packaging System (Academic Project)

- Worked with a team of 5 members to design a new way of reducing packaging waste.
- Met with stakeholder representatives to obtain input on our design and make changes.
- Ended up getting second place for our class.

Leadership Experience

Team Captain, High School FRC Team

- Helped lead my high school robotics team during the 2024 season for CRESCENDO.
- Organized team events and helped bring on new students through a summer camp.
- Met with school officials to help obtain a new practice room.
